VBG 795VR

Coupling VBG 795VR is intended for heavy centre-axle trailers, twin steering axle trailers and dollies fitted with drawbar eyes in accordance with VBG standard Ø 57 mm. VBG 795VR has an enclosed and reinforced attachment package and is ideal for a combination of heavy loads/applications and poor road conditions. A robust and user-friendly design guarantees that the coupling is operationally reliable and durable.
